

## The Wild Ginger Wine Program

We have heard time and time again that wine doesn't go with Asian food . . . we beg to differ. The diversity of flavors in our cuisine accommodates a surprising variety of wines. Though Riesling, Syrah and Grenache from nearly every region that grows them pair perfectly with the majority of our foods, there are dishes that demand Pinot Noir, Chardonnay, Zinfandel, Merlot and Cabernet Sauvignon as well; we have yet to find a wine that doesn't work with something we serve.

Beyond the mere mechanics of food and wine pairing, we believe that handcrafted wines have the possibility to convey authenticity - of place, grape, and producer - and pure joy to the drinker in a way that few other things can. It is this authenticity and joy that ties wine to our food in the deeper sense, and informs our belief that wine is an integral part of Wild Ginger's offerings.

To this end, we have been collecting wines that we believe compliment our food for over 20 years. Our collection now exceeds 45,000 bottles spread between three restaurants and lots of temperature-controlled wine cellars. Our selection includes wines of all prices, styles and nationalities, with many verticals of the greatest wines ever produced. We are especially pleased to have one the most extensive collections of wines from both the Pacific Northwest and Germany available in any restaurant, anywhere. In keeping with our commitment to value, we have taken a bold stand challenging conventional notions of restaurant wine pricing. Our hope is that everyone will get the chance to enjoy these great bottles with our food.

*There are more than 2000 additional selections, similarly priced, on our cellar list. Ask your server or sommelier to see one.*

Information will be constantly updated on our blog

Confucius Says ... 2009	Columbia Valley, Washington	8.5	
Eberle <i>Vineyard Selection</i> Cabernet Sauvignon 2009	Paso Robles, California	11.5	

## super-premium wines by the glass

The Enomatic wine preservation system stores open bottles of wine in a temperature-controlled environment, free of oxygen. This allows us to open special selections from our deep cellars and pour them by the glass. Try one and see what we mean.
